

Military Sealift Command – Industry Day The Westin Josun Busan, July 26th, 2023

Partners, Guests, and Colleagues,

Thank you for your participation in our Industry Day.

We appreciate having you in attendance and look forward to working with you. In addition to our keynote speakers, we have also set aside time for informal sessions to help you understand our goals and help us work together to achieve them. These sessions will be held in the afternoon after the presentations, please register for open times with our MSC/FLC representatives as you require.

Our morning agenda includes a brief introduction to the Military Sealift Command and our current ship inventory, as well as a discussion of the contracting process from our Fleet Logistics Center (FLC) representatives. After a short break we plan to continue with a discussion of our planning schedules, as well as our maintenance and repair requirements.

After a lunch break we would like to break up into individual sessions as necessary and address any questions, comments, or concerns you may have. Please use this opportunity to clear up any remaining questions and to learn about the contracting process and registering to do business with MSC via FLC.

We look forward to meeting you and the opportunity to work together to achieve our common goals.

Warmly,

Mr. Neil Lichtenstein
Military Sealift Command
Deputy Director of Ship Management
