

Military Sealift Command – Industry Day Westin Josun Hotel February 11th 2025

Partners, Guests, and Colleagues,

Thank you for your participation in our Industry Day.

We appreciate having you in attendance and look forward to working with you. In addition to our keynote speakers, we have also set aside time for informal sessions to help you understand our goals and help us work together to achieve them. These sessions will be held in the afternoon after the presentations. Sign-ups for the afternoon sessions have been finalized and times will be available for your planning at the Registration desk.

Our morning agenda includes a brief introduction to the Military Sealift Command and our current ship inventory, planning schedules, and a presentation on an Annual Submittals Program initiative we hope to introduce later this year. We will also have a discussion of the contracting process from our Fleet Logistics Center (FLC) representatives. After a short break we plan to continue with a discussion of our MSC solicitation technical evaluation factors and areas where contractors can focus to meet technical acceptable ratings on their first submittal.

After a lunch break we will hold individual sessions as already scheduled to address any questions, comments, or concerns you may have. Please use this opportunity to clear up any remaining questions about our technical evaluation factors or any other contracting or ship repair requirements.

We look forward to meeting you and the opportunity to work together to achieve our common goals.

Warmly,

Mr. Neil Lichtenstein
Military Sealift Command
Deputy Director of Ship Management
