# PERFORMANCE WORK STATEMENT STATEMENT OF WORK

Contract: N00033-11-D-6505

Title: MSC Budget / POM Formulation System (BPS Replacement)
Period of Performance: On or about 27 March 2014 – 01 December 2014

COR/ACOR: As per contract, Section G-3

Government Program Manager (PM): Jim Tran,

#### 1.0 SCOPE

#### 1.1 Objective

Using Oracle Hyperion and related COTS products, the Contractor shall implement a solution that meets the functional and technical requirements contained herein and migrates MSC Budget Preparation System (MSC-BPS) functions from a legacy, custom developed application to the Oracle Hyperion enterprise budgeting and Hyperion Essbase solution (MSC-BPFS). All work performed will be in accordance with MSC's established processes and procedures.

#### 1.2 Background

MSC-BPS is a custom developed application that assists MSC's Financial Directorate in preparing the MSC budget. It is based on a Java user interface, an Oracle back-end database, and relies on Oracle Discoverer for management reporting. MSC-BPS allows various factors, such as ship statistics, direct and indirect costs, estimated inflation rates, fuel prices, and historical weights to be input and calculated within the system. The system determines the total cost per ship per year and calculates the daily billing rate charged to MSC's customers. System users can then generate ad-hoc reports to view the data throughout the process.

The current MSC-BPS application is outdated and at the end of its life cycle; as it is a custom application built to satisfy a different process set, it relies on manual data entry into the system and lacks the flexibility for analysis and justification of MSC programs. Modernizing this system will improve quality, timeliness, and confidence in the budget outcome. A replacement system (MSC-BPFS) will decrease the time needed to create the Navy Working Capital Fund (NWCF) and US Transportation Command Working Capital Fund (TWCF) budgets, improve MSC's ability to provide consistently high-level customer service, and make corporate data available across the enterprise. It is anticipated this change will:

- Automate transaction processing from MSC-BPS to MSC-FMS
- Reduce manual effort, by automating the transactions processing into MSC-FMS.
- Reduce the legacy network footprint by decommissioning current MSC-BPS.
- Consolidate application platform into existing Oracle eBusiness Suite used for Command Financial Management.
- Improve ease of maintenance and security posture due to consolidation of application suite.
- Identify options for Office of Personnel Management (OPM) and Congressional budgets to auto load into MSC-BPFS.

# 2.0 GOVERNMENT FURNISHED EQUIPMENT/MATERIAL/INFORMATION (GFE/GFM/GFI)

- 2.1 Oracle Hyperion Software
- 2.2 Functional Requirement Documentation

#### **3.0 TASKS**

The contractor shall provide support described per the following sections of the base contract:

- C4.1.2 Program Management Reviews
- C4.1.3 Portfolio Management Support
- C4.1.4 Program Management Plan (PMP)
- C4.1.5 Monthly Status Reports
- C4.1.6 Information Assurance Support
- C4.1.7 Enterprise Architecture Support
- C4.1.8 COMSC and N6 Technical Support
- C4.2.3 MSC FMS System Enhancements

#### Task 1 – MSC-BPFS Functional Support

**Build Prototype** – The contractor shall build the MSC-BPFS prototype and then conduct workshops with key MSC N81 personnel, to validate requirements and software functionality so that MSC can understand how the future-state application (for example by business process: budget / POM formulation system business process) will be used to satisfy the identified business and technical requirements.

**Testing:** The Contractor shall conduct functional testing to ensure that correct results are provided when executing calculations, data entry, report retrieval, and consolidations. Ensure that the MSC budget/POM formulation system has met the needs of the end users from a functional and performance perspective.

**Deploy Prototype to MSC environments:** Upon review and acceptance (official sign-off) of the MSC-BPFS prototype by the COR and the Functional Sponsor (N81 Director ) the Contractor shall deploy the MSC-BPFS prototype to MSC's DEV, TEST and PROD environments. The Contractor, working with N81, will conduct User Acceptance testing in DEV and TEST before deploying to PROD.

**Training:** The Contractor shall develop and implement a training plan for the new system.

#### Task 2 - Budget Preparation System Replacement - Technical

The Contractor shall:

- Work collaboratively with external stakeholders and their respective contract staff to review and validate functional business requirements for Budget Preparation for MSC's Financial Management Directorate
- Test Financial Data Mart (FDM) and Financial Management System interfaces with the Hyperion system
- Design, develop, test, and release the Oracle Hyperion enterprise budgeting and Hyperion Essbase in the Development, Test, UAT and Training Instances.
- Conduct unit, integration and regression testing for the Hyperion system

- Provide release management support to MSC N6 branches deploying upgraded patches and components as directed by Oracle to ensure MSC-BPFS has the latest released (and DADMS approved) versions of its software
- Provide release management support to MSC N6 branches of approved solutions to the Production environment(s).
- Identify and expose any issues and associated risks, communicate all known issues to the project team, and ensure that all issues are addressed in an appropriate manner before release.

#### <u>Task 3 – Milestone Reviews</u>

The contractor shall schedule and conduct milestone reviews in accordance with MSCHQ Enterprise Project Management (EPM) processes and principles, and shall obtain documented approval to proceed from the COR, ACOR, or Technical Point of Contact at each milestone review.

#### Task 4 – Meeting Minutes

The contractor shall document all meetings and provide meeting minutes to the COR/ACOR.

#### 4.0 PERFORMANCE REQUIRMENTS SUMMARY (PRS)

#### 4.1 Bi-weekly Updates

Requirements are as per the Monthly Status report.

#### 4.2 Meeting Minutes

The meeting minutes shall contain the following detailed meeting information, using the MSC meeting minutes template:

- Date & Time
- Purpose
- Attendees
- Summary of discussions
- List of decisions / agreements
- List of actions items with assignments and due dates
- Date, time and location of follow up meetings

#### 4.3 Trip Reports

Provide a trip report for travel to locations as an MSC N6 representative. It shall contain the following detailed travel information:

- Dates
- Purpose
- Location
- Dates at Site
- Personnel Contacted
- Summary
- Chronology of Events
- Observations
- Deliverables Left
- Software Performance

- Action Items
- Conclusion

#### 4.4 Software and Business Documentation

The contractor shall provide the following deliverables:

- Software Requirements Specification, including use cases, with functional sponsor signatures. This includes but is not limited to:
  - Functional Design Documentation
    - Data structures including hierarchies and relationships
    - Business rules (calculations)
    - MSC organization structures
    - Data entry form designs (both narratives and numeric)
    - Report designs
    - Workflow requirements
    - Budget Version and Scenario requirements
    - Task calendaring and related system designs
- Test Plans (unit, integration, regression)
- Software Class specifications
- Contingency Plan updates
- Test Results
- Software Installation Instructions
- Meeting Presentation Handouts, Slides and Meeting Minutes.
- Source code and operating program for all designed and developed modules.
- System specifications necessary to recompile and deploy the software
- System Administrator Standard Operating Procedures (SOPs)
- User training materials (including on-line help and tutorial materials, user manuals, etc.)
- Updated N81 Standard Operating Procedures (SOPs)

#### **5.0 FORMAT OF DELIVERABLES**

All documentation deliverables shall be prepared using Microsoft Office products (Word, Excel, Project, and PowerPoint) in a format acceptable by the COR, unless the COR and contractor mutually agree to the use of other software. Delivery shall be posted to the MSC IS Portal (per the IS Portal handbooks) or via email.

#### Delivery Schedule

Description of Deliverable	Due Date	Media Type	Delivery Point(s)
Bi-weekly updates / status reports	Bi-weekly	Soft Copy	1 copy to COR/ACOR
			1 copy to Govt PM
Meeting minutes	3 business days after meeting	Soft Copy	1 copy to Govt PM
			1 copy to COR/ACOR
Trip Reports and Supporting Travel	5 business days after	Soft Copy	1 copy to COR/ACOR
Documents	completion of travel		1 copy to Govt PM
Functional Design Documentation -	Within 45 days after Build	Soft Copy	1 copy to COR/ACOR
must include: Data structures	phase completion – test		1 copy to Govt PM
including hierarchies and	readiness review milestone		

relationships, Business rules (calculations), MSC organization structures, Data entry form designs (both narratives and numeric), Report designs, Workflow requirements, Budget Version and Scenario requirements, and Task calendaring and related system designs			
Test Plans (unit, integration, regression)	Within 45 days of Build Phase completion – test readiness review milestone	Soft Copy	1 copy to COR/ACOR 1 copy to Govt PM
User training materials (including on-line help and tutorial materials, user manuals, etc.)	Within 45 days of Test phase completion – deployment readiness review milestone	Soft Copy	1 copy to COR/ACOR 1 copy to Govt PM
Contingency Plan updates	As Required	Soft Copy	1 copy to COR/ACOR 1 copy to Govt PM
Test Results	20 days after Test phase completion – deployment readiness review milestone	Soft Copy	1 copy to COR/ACOR 1 copy to Govt PM
Meeting Presentation Handouts, Slides and Meeting Minutes	5 business days prior to meeting; meeting minutes 3 business days after meeting	Soft Copy	1 copy to COR/ACOR 1 copy to Govt PM
Update N81 Standard Operating Procedures (SOPs)	As Required	Soft Copy	1 copy to COR/ACOR 1 copy to Govt PM
Software Class Specifications	45 Days after the project closeout review milestone, but no later than the end of the task order performance period	Soft copy	1 copy to COR/ACOR 1 copy to Govt PM
