From: Commander, Military Sealift Command

To: Marshall Yuan, Director, Marshall Tech Pty Limited

Subj: QUALIFICATION OF MARSHALL TECH PTY LIMITED TO PROVIDE SERVICE AND REPAIR SUPPORT FOR ABB BAILEY CONTROLS AND AUTOMATION SYSTEMS

Ref: (a) COMSC Instruction 4490.1C

1. Reference (a) establishes Military Sealift Command (MSC) policy and procedures for qualification requirements in the procurement of items critical to safety and the modification, repair and overhaul of those items assigned to Military Sealift Command vessels. The Instruction designates the MSC Engineering Director as the Design Control Activity (DCA) responsible to ensure that the design, production and performance standards are met for ship critical safety items. The instruction further assigns responsibility to the DCA to establish qualification requirements and to qualify and identify vendors that meet the criteria and standards for ship critical safety items.
2. Marshall Tech Pty Limited requested biennial reevaluation of their qualification (originally issued 24 November 2018) and submitted all required information. An MSC N7 Engineering DCA evaluation team reviewed that information and determined that Marshall Tech Pty Limited meets the relevant qualification criteria for maintenance and repair services on ABB Bailey Controls and Automation Systems.
3. Marshall Tech Pty Limited is deemed qualified to provide OEM-equivalent maintenance and repair services on MSC ships for ABB Bailey Controls and Automation Systems. This qualification must be re-evaluated no later than 24 months from the date of this letter. Within its sole discretion, MSC may revoke qualification at any time if Marshall Tech Pty Limited fails to provide quality maintenance and repair services, or if Marshall Tech Pty Limited is unable to sustain the capabilities required in reference (a).
4. The MSC point of contact is Benjamin Hawbaker, ph: (757)341-6211; email: msc_nonoem_qual@us.navy.mil.
